

# Auction Date Advancement Request Form

***This form must be filled out by the Primary Contact and submitted via case through the Customer Portal***

This form provides applicants who have received an intent to Auction notification the ability to request an advancement to their scheduled Auction Date. Should all contention set members agree they would like to advance their scheduled Auction Date, ICANN may accommodate such requests. Each member of the contention set must request the earliest Auction Date they can support. Requests from any fewer than all active members of a contention set will not be honored. Notifications of advancement must be provided to ICANN at least **45-days** prior to the Earliest Preferred Auction Date requested. This form must be completed by the Primary Contact and submitted via case through the Customer Portal.
