

## Self-certification (change log)

Template Version: 2.0.0, Date: 2013-12-20

### Change Log

Date	Version	Name	Description
2013-02-05	1.6	Lennart Beckman	<ul style="list-style-type: none"><li>- Revised text regarding assertions made in the gTLD Application. Better explanation of what is expected by Applicant.</li><li>- Section 1.1.5: New text asking the Applicant to provide explicit listing of nameservers for unicast and anycast, a description of anycast solutions and a listing of servers in anycast sets.</li><li>- Applicant Revision Date added in heading.</li><li>- New more readable font used. Minor changes of text to enhance readability.</li></ul>
2013-06-04	1.7	Lennart Beckman	Changed specifications in Section 4. Minor clarification in Section 3.3.
2013-06-04	1.7.1	Mats Dufberg	Removed the instructions to provide names, locations and IP addresses of nameservers and anycast clusters.
2013-06-25	1.8	Lennart Beckman	Removed references to the gTLD Application, inserted references to the Registry Agreement
2013-07-03	1.8.1	Mats Dufberg	Minor update of section on data escrow agreement.
2013-07-11	1.9	A. Thulin	Updated to follow ICANN modifications of testcases. Main changes are: DNS 02: Network reachability with ASN added, Whois 01: IPv4 and IPv6 dropped WhoIS 02: datamining for web interface dropped WhoIS 03 (searchable whois): deleted EPP 01 & 02: maximum TPS changed to expected TPS, requiring adding request for anticipated load and load capacity. EPP 05 (IPv6) and 06 (Extensions): deleted. Also various minor adjustments of ambiguous text.

Date	Version	Name	Description
2013-07-17	1.9.1	Mårten Frosth	Updated 1.1.5 to include question about specific names, locations and IP addresses of all name servers in order to be able to perform test case DocDNS08. Reinstated 3.3 in order to perform DocEPP04.  Added clarification to 1.3.1 regarding TCP-based DNS queries. One TCP-based DNS query record for each name server is sufficient.
2013-07-17	1.9.2	Mats Dufberg	Added meta-comments.
2013-07-18	1.9.3	Mårten Frosth	Modification to 3.3 according to modified test case DocEPP04. Changed 3.5 to 3.4 and modified test case DocSL03.
2013-07-18	1.9.4	Mårten Frosth	Modified section 4 to better match the test case DocEscr01 in terms of terminology.
2013-07-24	1.9.5	Mårten Frosth	Under 1.1.5 instruction. Changed all name servers to all authoritative name servers. Removed comments. Released.
2013-07-25	1.9.6	Mårten Frosth	New version 1.9.6. Modifications from ICANN regarding AGB text in section 1.2.1. This was removed since it was not deemed relevant for PDT.
2013-08-07	1.9.7	Mårten Frosth	Heading 2.4 regarding SLA, Whois changed to 2.3 since one previous heading was removed.
2013-09-18	1.9.8	Mats Dufberg	Added section 5 for IDN with declaration of IDN support and supported IDN tables.
2013-10-02	1.9.9	Mårten Frosth	Added searchable whois section with number 6.
2013-12-20	2.0.0	Mats Dufberg	Removed section 5 (IDN). Moved to IDN Self-certification template
