## Respondent:

Applicant Name	Guangzhou YU Wei Information Technology Co., Ltd.
Application ID	1-1121-82863
Applied for TLD (string)	深圳

## Response:

The applicant appreciates the opportunity to provide the response below to the ICANN Board of Directors regarding the GAC's advice concerning the applicant's applied for string 深圳 (SHENZHEN).

The applicant was aware of the requirement of a support or non-objection letter for its geographic name gTLD application from the relevant governments or public authorities. As the applicant is a legal entity established and conducting its TLD business in the People's Republic of China, the applicant anticipated that such letter would be issued by the Ministry of Industry and Information Technology (“MIIT”), according to No. 89 Announcement promulgated by the MIIT, before the closing of the new gTLD application window.

However, the applicant subsequently learned that the MIIT letter of support was contingent upon the applicant reaching an agreement with the Shenzhen municipal government in relation to the application.

The applicant then immediately commenced dialogues with the Shenzhen government, during which time, the applicant received the GAC Early Warning regarding the need to obtain a support or non-objection letter from the relevant governments or public authorities.

The applicant is continuing its dialogue with the Shenzhen government. In the last few months the parties have made good process towards reaching an agreement. Once an agreement is reached, the applicant will obtain necessary documentation of support from the MIIT and provide the same to the new gTLD evaluation panel for further consideration of the application.
