Overall Initial Evaluation Summary

**Initial Evaluation Result:** Pass

Congratulations!

Based on the review of your application against the relevant criteria in the Applicant Guidebook (including related supplemental notes and advisories), your application has passed Initial Evaluation.

Background Screening Summary

**Background Screening**

Eligible

Based on review performed to-date, the application is eligible to proceed to the next step in the Program. ICANN reserves the right to perform additional background screening and research, to seek additional information from the applicant, and to reassess and change eligibility up until the execution of the Registry Agreement.

Panel Summary

**String Similarity**

Pass - Contention

The String Similarity Panel has determined that your applied-for string is visually similar to another applied-for gTLD string, creating a probability of user confusion. Based on this finding and per Sections 2.2.1.1 and 2.2.1.2 of the Applicant Guidebook, your application was placed in a string contention set.

**DNS Stability**

Pass

The DNS Stability Panel has determined that your application is consistent with the requirements in Section 2.2.1.3 of the Applicant Guidebook.

**Geographic Names**

Not a Geographic Name - Pass

The Geographic Names Panel has determined that your application does not fall within the criteria for a geographic name contained in the Applicant Guidebook Section 2.2.1.4.

**Registry Services**

Pass

The Registry Services Panel has determined that the proposed registry services do not require further review.

**Technical & Operational Capability**

Pass

The Technical & Operational Capability Panel determined that:

Your application meets the Technical & Operational Capability criteria specified in the Applicant Guidebook.
