

Draft Auction Schedule

This Draft Schedule for Contention Set Auctions is based on the preliminary String Contention Sets as of 16 December 2013. The Contention Sets have not yet been updated to incorporate the impact of any objection determinations. Additionally due the dynamic nature of application status this Draft Schedule does not yet consider the pre-requisites for a Contention Set to be sent to an Auction as defined in the Auction Rules.

This document will be updated after the public comment period based on the community's feedback.

Draft Auction Schedule
as of 16 December 2013
