Applied for TLD (string)	.SHOP

### RESPONSE:

#### Introduction

We thank the ICANN Board for the opportunity to respond to the Governmental Advisory Committee (GAC) Advice and for considering the points made in this response. In all, Charleston Road Registry, Inc. (CRR) received advice on 31 of its applied-for strings. This response specifically addresses concerns described in Section IV, Annex I, Category 2.2 – Exclusive Access for CRR’s .SHOP application.

We also thank the GAC for the time and effort we know must have gone into the preparation, drafting and issuance of its advice. We recognize the difficult work the GAC undertakes and appreciate the important role the GAC plays within the multi-stakeholder process. We were happy to see the GAC reach consensus on many important issues.

CRR has always been and remains very committed to the security and stability of the domain name system as well as the success of the new generic top-level domain (gTLD) program and it is in that spirit that we submit the following response to the GAC Advice.

### CRR's Response to Category 2.2 - Exclusive Access Safeguard Advice for .SHOP

CRR notes .SHOP is a listed string under the GAC's Category 2.2 Exclusive Access safeguard advice. Our application for .SHOP is an open TLD model and not an exclusive access TLD model. Exclusive access model means the TLD is limited to the exclusive use of the applicant whereas our open TLD model means the TLD is open to all ICANN-accredited registrars, and registration of domain names in the TLD will be open to all. Therefore, it is our belief that CRR's application for .SHOP is not a member of the GAC's Category 2 - Exclusive Access safeguard advice.

### Conclusion

CRR believes its .SHOP application does not fall under Category 2 - Exclusive Access safeguard advice. It is our understanding that Category 2 - Exclusive Access safeguard advice addresses GAC concerns around .SHOP applications that are limited to the exclusive use of the applicant. As described above, CRR's .SHOP application does not meet this definition. Therefore, we respectfully request that CRR's application for .SHOP not be considered a member of the GAC's list of applications subject to Category 2 - Exclusive Access safeguard advice.

We would like to thank the Board for its consideration of our response, and we look forward to continuing the dialogue with the Board, the GAC and the ICANN community regarding the new gTLD program.
