## Respondent:

Applicant Name	L'Oréal
Application ID	1-1302-1511
Applied for TLD (string)	MAKEUP

## Response:

L'Oréal would like to affirm to the ICANN Board our commitment to operating the .MAKEUP gTLD in a manner that reflects our longstanding history of corporate responsibility.

L'Oréal is a leading global consumer products company serving the needs of consumers around the world with 23 brands in five different segments. L'Oréal has 68,900 employees, and its products are available for purchase online and in stores and outlets in over 130 countries.

In line with our overarching mission, L'Oréal plans to operate the .MAKEUP gTLD with the aim of bringing to market a trusted, hierarchical, and intuitive namespace for a dynamic collaboration of individuals and organizations whose primary focus is on providing and exchanging information regarding beauty products, cosmetics, and general information related to makeup and fashion. This .MAKEUP gTLD may also serve as a secure repository of goods and services related to cosmetics and beauty products. L'Oréal will operate .MAKEUP as a closed registry. In doing so, we can ensure that all operations within the gTLD will be conducted in line with a strict code of conduct that includes prohibitions against:

- Counterfeiting, piracy, and other forms of intellectual property theft,
- Phishing or other forms of online fraud,
- The distribution of malware or operation of botnets, and
- The provision of incomplete or inaccurate WHOIS information.

In doing so, L'Oréal aims to create a safe online space for consumers, free from many of the risks associated with conducting business online.

The Governmental Advisory Committee's Beijing Communiqué advises that “for strings representing generic terms, exclusive registry access should serve a public interest goal.” In association with this recommendation, the Governmental Advisory Committee (GAC) identifies .MAKEUP as a generic string seeking exclusive registry access.

We hope this quells any concerns that the Board might have associated with the .MAKEUP gTLD. We invite further dialogue with the Board if it has any remaining concerns regarding L'Oréal's .MAKEUP application.
