

GAC Advice Response Form for Applicants

The Governmental Advisory Committee (GAC) has issued advice to the ICANN Board of Directors regarding New gTLD applications. Please see Section IV, Annex I, and Annex II of the [GAC Beijing Communiqué](#) for the full list of advice on individual strings, categories of strings, and strings that may warrant further GAC consideration.

Respondents should use this form to ensure their responses are appropriately tracked and routed to the ICANN Board for their consideration. Complete this form and submit it as an attachment to the ICANN Customer Service Center via your [CSC Portal](#) with the Subject, “[Application ID] Response to GAC Advice” (for example “1-111-11111 Response to GAC Advice”). All GAC Advice Responses must be received no later than 23:59:59 UTC on 10-May-2013.

Respondent:

Applicant Name	Asia Green IT System Bilgisayar San. ve Tic. Ltd. Sti.
Application ID	1-2130-23450
Applied for TLD (string)	islam

Response:

I am writing to you as CEO of Asia Green IT System (hereafter "AGIT"). We are the sole applicant for Dot ISLAM and our application is currently in Initial Evaluation with priority number 564.

Our application has received no String Confusion Objections, no Existing Legal Rights Objections and no Limited Public Interest Objections. It has received a Community Objection from the Telecommunications Regulatory Authority of the United Arab Emirates.

The GAC's Beijing Communiqué dated April 11, 2013 includes advice to the ICANN Board on our application for Dot ISLAM . Specifically, the GAC said: "The GAC recognizes that Religious terms are sensitive issues. Some GAC members have raised sensitivities on the applications that relate to Islamic terms, specifically .islam and .halal. The GAC members concerned have noted that the applications for .islam and .halal lack community involvement and support. It is the view of these GAC members that these applications should not proceed."

This advice is very specifically worded and must be carefully considered to avoid any misunderstanding. It is made by the GAC under Module 3.1 part II of the Applicant Guidebook which states that "The GAC advises ICANN that there are concerns about a particular application "dot-example." The ICANN Board is expected to enter into dialogue with the GAC to understand the scope of concerns. The ICANN Board is also expected to provide a rationale for its decision."

This advice therefore is not the result of an overall consensus of the GAC. It is, as the GAC highlights in its Beijing Communiqué, the result of some GAC members raising concerns. These concerns and any statements accompanying them, such as the suggestion made in the Beijing Communiqué by the members in question that our application for Dot ISLAM lacks community involvement, cannot be considered as anything more than individual opinions being expressed by at most a few GAC members.

GAC Advice Response Form for Applicants

As the applicants for Dot ISLAM , we stand ready to engage with the ICANN Board to provide in-depth explanations on our TLD and to help the ICANN Board complete the process described under Module 3.1 part II of the Applicant Guidebook.

Dot ISLAM is an ambitious project to bring Muslims together across national borders in a free-flowing exchange of information and commerce. AGIT is based in Turkey, a country often considered a bridge between Europe and the Middle East and between different cultures, including Islam. AGIT was founded by Muslims. We are devoted to our religion, and proud of it. Our aim is to create a quality namespace for the Muslim faithful and those who wish to learn about Islam or interact with Muslims. For the last 8 years, our team has been at the forefront of efforts towards dedicated Muslim domain names. Dot ISLAM is about putting the Internet's vast resources within reach of the Muslim community, whilst also increasing the amount of information and resources about Islam that is available online. We seek to serve the Muslim people, but also all those interested in Islam.

We take our responsibility towards the Internet users that will be served by Dot ISLAM very seriously indeed. AGIT will be putting measures in place to limit second-level domain registrations to those of Muslim faith or with a positive interest in the Muslim community. Due to the complexity of enforcing this through a set of standard registration rules, Dot ISLAM registrants will be asked to self-impose their commitment to proper behaviour within this TLD and will be provided with mechanisms to report abusive, irrelevant or anti-Muslim registrations.

As Dot ISLAM operator, we will not tolerate radical content or criticism of Islam and the Muslim faith, and we will take immediate and severe action against this should it occur. We will strive to ensure Dot ISLAM is both an abuse-free TLD and one that is open to those who respect our faith. This will be accomplished with Registration safeguards, keyword alerts, name selection policies, all governed by an Acceptable Use Policy and post registration protections.

We have gone to great lengths to ensure Dot ISLAM meets the highest possible standards of quality. Our application has received letters of support from, amongst others, the media, civil society, religious organisations, public figures and NGOs. We have received letters of support from prominent members of the Muslim community, such as former Malaysian President Dr. Mahathir Mohammad, and such countries as Turkey, Lebanon and Pakistan and the Muslim communities in countries in Europe and even South America.

Being supported by the Islamic community and operating our TLD in a way which meets with the requirements of that community is also something we have been working hard towards. Some of the initiatives we have currently ongoing to reach these objectives include:

Creating a Dot ISLAM Policy Advisory Council (PAC): We have been working with Internet public policy experts to draw up a governance plan for Dot ISLAM. The PAC is a result of this work. It would exercise an oversight function on the operation of the TLD in areas such as registration policies, dispute resolution and content monitoring. The PAC would include representatives of 3 main groups that make up the Muslim community:

- a. governmental representatives,
- b. religious leaders
- c. civil society

GAC Advice Response Form for Applicants

Ideally, the PAC would be chaired by a representative of one of the international Islamic Organisations such as OIC (Organization of the Islamic Conference) or ICCI (Islamic Chamber of Commerce and Industry) or their subsidiaries.

As part of our drive to actively support the Muslim community, we have decided that part of the revenue obtained from operating Dot ISLAM would be assigned to it. The PAC would oversee the selection of programs and initiatives slated to receive this financial support.

We have also communicated with the OIC and sent our proposals for the governance of Dot ISLAM to them. We have also communicated with the ICRIC (Islamic Chamber Research and Information Center). ICRIC is established in 2003 and acts within the framework of its articles of association approved by the Islamic Chamber to bolster trade and economic exchanges between Islamic countries.

We have also been working with the new gTLD program's Independent Objector (IO). The IO considered the case of Dot ISLAM and said: "the IO is of the opinion that an objection to the launch of the new gTLD “.Islam” on the limited public interest ground is not warranted. Quite the contrary, the gTLD could encourage the promotion of the freedom of religion, a fundamental right under public international law, by creating and developing a new space for religious expression that could benefit the Muslim community."

The IO's determination is crucial because of the sensitive nature of strings such as Dot ISLAM. For the new gTLD program to achieve its objectives, we as a community must abide by some key general principles at all times. Questions of religion are of paramount importance. In some countries, they play a key part at the highest levels of social, political and economic areas. But the way these issues are considered will vary from country to country, from jurisdiction to jurisdiction and according to different cultural orientations. Simply put, there is no one size fits all here and this is precisely why the new gTLD program has been designed not to put ICANN in the position of having to try and determine a uniform solution to a situation that has many shapes and sizes.

As I have stated above, we understand the responsibility of operating this TLD with the appropriate respect for Muslims all over the world. This TLD is not just for one part of the Muslim community, and the ICANN Board should not limit its analysis of our application to one opinion or one perception.

This was evidently the approach taken by the GAC, as shown by the advice received which clearly states that the advice provided is not the result of GAC-level consensus but instead, reflects the opinion of just a few individual members. One such member is the UAE and as mentioned previously, before pushing for the comments made on Dot ISLAM to be included in the GAC's Beijing Communiqué, they had opted to work through the new gTLD program's objection procedure to bring their disagreement with our proposed TLD to the fore.

We believe this is the better avenue to determine whether our application should proceed and we therefore do not understand why this GAC member has also chosen to push the GAC to include Dot ISLAM in its Communiqué, unless there is a lack of confidence in the arguments presented against our application through the objection process and a desire to attempt to try and force their opinion by another mechanism.

This is not the way these issues should be considered. It is not fair on applicants like us, who have followed the new gTLD program's requirements to the letter and in spirit, and have played by its

GAC Advice Response Form for Applicants

rules as laid out in the Applicant Guidebook. It is not fair on the ICANN Board who is being placed in a position to judge what it should not have to. And it is not fair to the Internet users who stand to benefit greatly from the creation of a specific TLD for Islam.

We therefore urge the ICANN Board to let our application for Dot ISLAM work through the process established for the new gTLD program.

As CEO of the company behind what I sincerely believe will be a landmark TLD embodying all of the new gTLD program's ambitions of opening up the Internet's namespace to communities that have not had good access to it before, I would be personally be very happy to speak with the Board and answer any questions Board members may have as they prepare to make a determination on Dot ISLAM and provide the GAC with their rationale on this issue.

Best regards,

Mr. Mehdi Abbasnia
Chief Executive Officer
Asia Green IT System
Turkey

P.S.: In addition to the information contained in this letter, please find attached a list of the support received for Dot ISLAM (and another of our applications, Dot HALAL). I also attach for your information the first draft of the Dot ISLAM governance model which will provide you with detailed insight into the initiatives we are working on to endow Dot ISLAM with a robust, fair and effective governance mechanism.

Who support .ISLAM and .HALAL new gTLDs?

.ISLAM and .HALAL new gTLDs, applied for through Asia Green IT System have received several endorsement letters from different Islamic organizations and famous people around the world, and from different branches of Islam (Shia and Sunni as the main branches).

AGIT as the Muslim company applying for .ISLAM and .HALAL gTLDs, has an ongoing task to promote .ISLAM and .HALAL new gTLDs to the Muslim community to receive new supporting letters.

As a strategic approach, AGIT is trying to make International Islamic organizations like Organization of Islamic Cooperation (OIC), or Islamic Chamber of Commerce and Industry (ICCI) to be involved in the governance of .ISLAM and major Halal certification bodies to be involved in .HALAL policy making. Although it is hard to contact such huge organizations (OIC is the second largest international organization after UN), and very hard to explain the concept of TLD in their managerial positions (since most of high level managers in these organizations forward our letters to lower technical staff considering them as less important and more technical cases), but eventually we found the correct entities to sponsor .ISLAM and .HALAL gTLDs in terms of making decisions and policy making. After many meetings we have recently been succeeded in getting **Islamic Chamber Research and Information Center (ICRIC)**'s supporting letter for .ISLAM. Earlier we have also been succeeded in involving HALALWORLD, the only HALAL certification body which is accepted by all Islamic countries. (There are many Halal certification bodies around the world but all of them are supported by one or few countries. HALALWORLD is OIC's Halal certification standard project which is accepted by all Islamic countries)

Since getting the supporting letter, our decisions with them has improved in principle agreement of ICRIC-OIC to become a partner in the project and take a leadership role beyond support.

Levent, Istanbul, Turkey

In particular they could act as a potential sponsoring organization. We currently are working out the formalities of such relationship.

Islamic Chamber Research and Information Center (ICRIC) in association with the **Islamic Chamber of Commerce and Industry (ICCI)** which is under the umbrella of the **Organization of the Islamic Cooperation (OIC)** was established in 2003. ICRIC has a Board of directors consisting of 9 members from Malaysia, Jordan, Iran and Egypt plus Secretary General of ICCI and acts within the framework of its articles of association approved by the Islamic Chamber and with regard to 16 strategic principles included in its mandate for elevation of trade and economic ties among Islamic Countries.

AGIT has also recently started to open the opportunity to Muslim people to express their interest in .ISLAM and .HALAL gTLDs through online social media like Facebook (<https://www.facebook.com/DotIslam> and <https://www.facebook.com/GotHalal>) with thousands of fans.

List of .ISLAM and .HALAL gTLD supporters (updated on May 5th, 2013):

Access to the last updated PDF version of letters: <http://www.agitsys.com/pdf/dot-ISLAM-support-letters.pdf>

1. Major Organizations / Associations / Leaders representing Muslim populations:

1.1. Islamic Chamber Research and Information Center (ICRIC) (.ISLAM and .HALAL)

ICRIC is a subsidiary of **Islamic Chamber of Commerce and Industry (ICCI)** which is under the umbrella of Organization of Islamic Cooperation (OIC). ICRIC is responsible for research and information activities of ICCI and operates some of OIC and ICCI's

Tel: +90 212 319 38 87, 89

Fax: +90 212 319 38 02

Mall, Kirgulu St., Buyukdere Ave., 34394,
Levent, Istanbul, Turkey

projects. OIC has created ICCI in line with the goal of development for all Islamic communities, and its continuous consideration on the promotion of commercial and economic relations among its Member States to achieve the goal of sustainable and comprehensive development. ICRIC acts as the research and development wing of ICCI in terms of new ideas and technologies, so when contacting OIC's different sections, we were forwarded to ICRIC as the most relevant subsidiary of OIC and ICCI.

After several meetings with the general secretariat of ICRIC, we finally got their support of .ISLAM new gTLD, but we still have more negotiations to establish a formal cooperation in the governance of .ISLAM (maybe as one of their projects).

Link to download the letter (.HALAL): <http://www.agitsys.com/pdf/supports-halal/LOS-HALAL-ICRIC.pdf>

1.2. Dr. Mahathir Bin Mohamad (.ISLAM)

The former president of Malaysia and the man who moved Malaysia to an advanced country. He is with no doubt the most popular figure in Malaysia and many other countries. Dr. Mahathir was one of the first who supported us and his support has brought a great credit for AGIT, because everybody knows that he will not support a non-eligible entity to hold the sensitive TLD of .ISLAM.

Malaysia has a 14.5 million Muslim population and we believe Dr. Mahathir Bin Mohamad is the best representative of this community.

Link to download the letter: <http://www.agitsys.com/pdf/supports-islam/LOS-ISLAM-Dr. Mahatir Mohamad.pdf>

1.3. The Management Center for Islamic Schools of Thought (.ISLAM and .HALAL)

The management center for **Twelver** or **Imami** Shia Schools of thought (Hawza's) in Turkey, Azerbaijan, Iran, Iraq, Pakistan, India, Bahrain, Syria, Lebanon etc... operate under this center's supervision. (<http://en.wikipedia.org/wiki/Hawza> and http://www.nationmaster.com/graph/rel_isl_shi-religion-islam-shia)

Tel: +90 212 319 38 87, 89

Fax: +90 212 319 38 02

No.11, 4th Floor, Block D, Metrocity Shopping
Mall, Kirgulu St., Buyukdere Ave., 34394,
Levent, Istanbul, Turkey

Shia's population is around 200 Million. 85% of them (170 Million) are **Twelver** or **Imami Shia's**. All Imami Shīa's follow the thoughts of religious leaders which are trained in schools of thoughts in different countries under the supervision of this center. This center is the main training management system of Shia schools in terms of religious content and can be counted as the representative of **170 million Twelver or Imami Shia's** around the world.

Making them attracted to support .ISLAM was hard and time consuming process, following their deep investigations on the eligibility of AGIT to operate .ISLAM TLD.

Link to download the letter: http://www.agitsys.com/pdf/supports-islam/LOS-ISLAM_SHIA_HALAL-Center_of_Management_of_School_of_Thoughts.pdf

1.4. The World Forum for Proximity of Islamic Schools of Thought (.ISLAM and .HALAL)

The World Forum for Proximity of Islamic Schools of Thought is a multi cultural organization that several hundreds of Islamic leaders (both Shia and Sunni) cooperate with, in its consideration about creation of peace and proximity between different Islamic sects.

The forum holds the "Islamic Unity Conference" each year with participants from around the world, including mostly religious leaders of different Sects of Islam. The followers of these leaders are Muslims from all sects of Islam all around the world.

1.6. Islamic Center Hamburg, Germany (.ISLAM)

Germany has the largest Muslim population in Western Europe after France. Approximately 3 to 3.5 million Muslims live in Germany, and 80% of them do not have German citizenship; 608,000 are German citizens. 70% of the Muslim population is of Turkish origin. (<http://www.euro-islam.info/country-profiles/germany/>)

The **Islamic Centre Hamburg** (German: *Islamisches Zentrum Hamburg*) is one of the oldest Shia mosques in Germany and Europe.

Established in Hamburg, in northern Germany, in the late 1950s by a group of Hamburg-based emigrants and business people it rapidly developed into one of the leading Shia centers in the Western world.

Muslim groups of different nationalities get together for regular meetings, prayers, lectures, seminars, readings, Islamic festivals, funerals, etc. For interested people there is always opportunity to learn Arabic. Under Islamic rules, marriages are implemented. There are experienced theologians dedicated to help people who have psychological or family problems as well as those who have been newly converted to Islam. The Islamic Centre is regularly visited by schools, church communities and other interested groups from Hamburg and the nearby towns. Lots of organizations, lectures and discussions have been held to get rid of prejudices about Islam and to develop a better understanding of Islam. Our centre and Mosque may be visited at appropriate times.
